

About Us

TROY Laser is the premier laser cutting shop in Metro Detroit. Our focus is simple; deliver high quality precision laser cutting services at competitive prices.

Over the years we have developed long lasting relationships with our customers by producing outstanding products and accommodating short lead times that the market often demands. We pride our selves in our ability to meet and exceed our customers expectations time and time again. Since 1995 we have been partnering with our customers and providing laser cutting services they can count on.

No matter what type of good or product your company produces, manufacturing has changed dramatically in the last ten years, and will continue to do so in the years to come. To make sure you're staying ahead, you must communicate and work with suppliers who have the tools and experience necessary to handle your project.

We have recently added a new state of the art 4500 watt Mitsubishi Laser cutting system. This commitment to technology will keep us competitive and help deliver the parts you need for your next project.

Our team of professionals and industry partners are able to offer you a diverse range of services to ensure that your project gets completed right the first time, on time.

LASER CUTTING

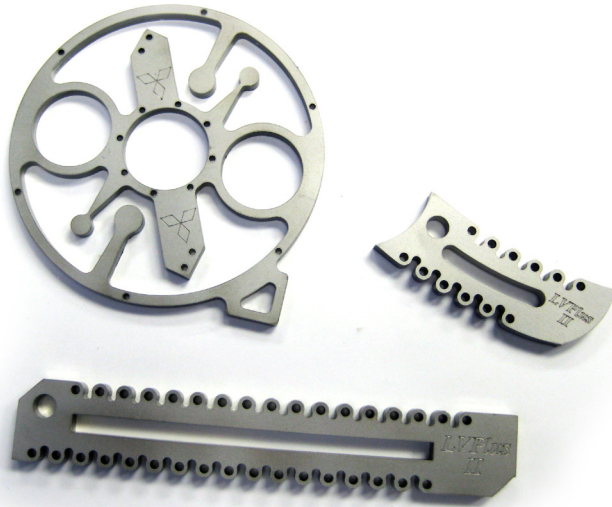

Troy Laser is the specialist in laser cutting, with a combined 35+ years experience in laser cutting and manufacturing. Troy Laser is on a venture to tackle the biggest industry challenges:

Quality - Slag correct, and free cuts, dimensionally clean aesthetically pleasing parts.

Timeliness - We WILL meet our deadlines!

Price - Low overhead allows us to pass the savings to our customers.

One of the unique characteristics of Troy Laser is our ability and willingness to work with seldom laser cut materials such as Plywood, Foam, Plexiglas, Mylar, Rubber, Paper, Carbon fiber, Cardboard, and more...

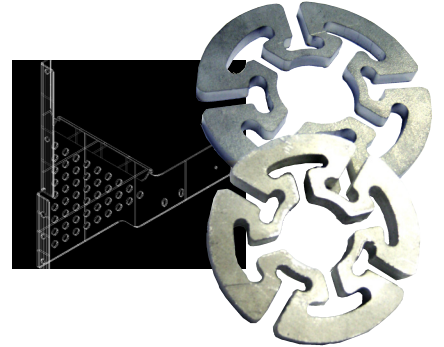

From one-off prototypes to high volume production runs, we are able to conquer all challenges. Put your job in our trust and rest assured the parts you receive will be delivered on time and correct.
